

Navigating the Library Databases for Nursing

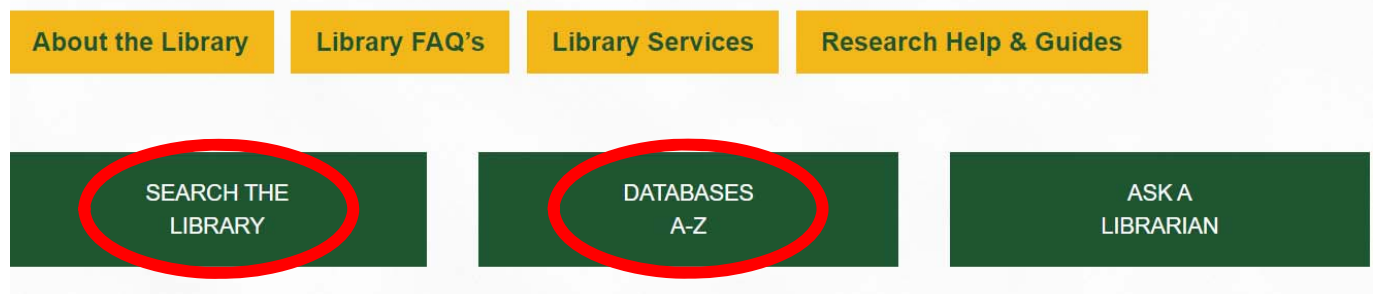

Start at the FGC homepage: <https://www.fgc.edu/> and click on **Library**.

You can start your search by clicking **Search the Library**, or going to a specific database by clicking **Databases A-Z**.

Home / Academics / Library

Students need to be logged in to get access to online resources.

The log in is the same as MYFGC or MyCourses using your Wolves email and password.

Note: If you need help, call the library at 386-754-4401 or email library@fgc.edu.

PEER REVIEWED

For the list of all databases available to students, click on the **Databases A-Z** tab at the top.
For nursing related databases, change the dropdown from All Subjects to **Health & Medicine**.

The screenshot shows a web browser window with the URL fgc.libguides.com/az.php?s=184223. The page features the Florida Gateway College logo and the text "FLORIDA GATEWAY COLLEGE". A dropdown menu is open, showing a list of subjects with "Health & Medicine (13)" selected. Below the menu, there are search filters for "All Database Types", "All Vendors / Providers", and a search box with a "Go" button. At the bottom, it displays "13 Databases found for Health & Medicine" and a "Clear Filters/Browse All Databases" button. An "Experts" section indicates that no experts have been assigned to this subject.

There are many databases to choose from in the **Health & Medicine** subject area. We'll focus on:

- **CINAHL**
- **Medline with Full Text**
- **Nursing Library (Rittenhouse) - eBooks**
- **OVID**
 - **Full-Text Nursing Journals**
 - **and Nursing eBook Collection**
- **Springer eJournal Collection**
- **Medcom Nursing – videos**
- **APA Citation Resources**

At the article level, click the yellow Cite button

on the right to get an APA style citation of the article.

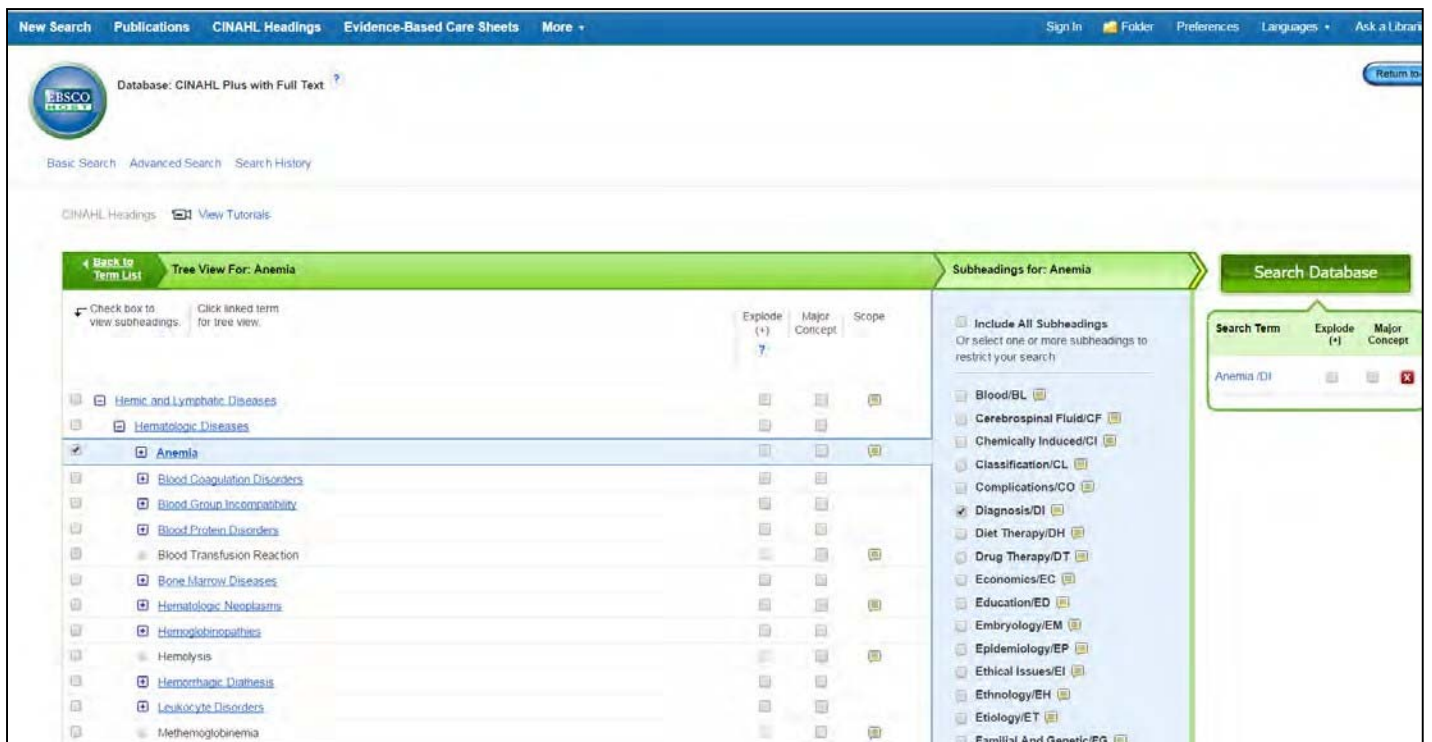

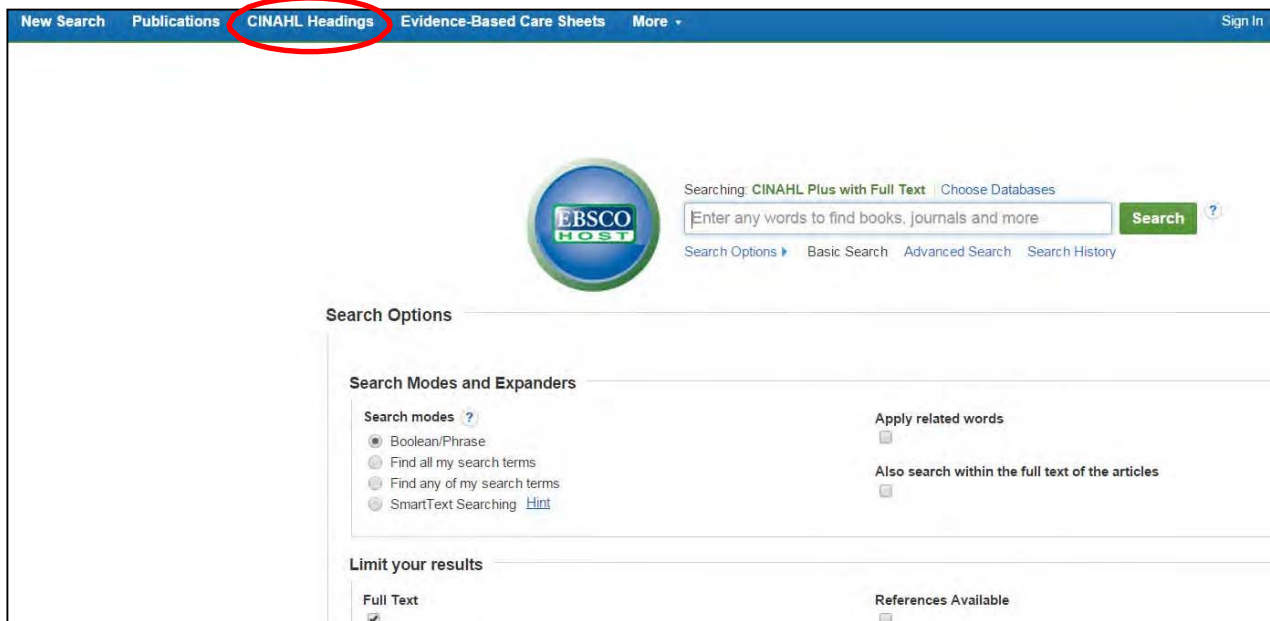

The screenshot shows the EBSCOhost interface for a clinical practice article. The article title is "Diagnosis and management of preeclampsia: A clinical perspective on recent advances in the field". The abstract discusses hypertensive disorders of pregnancy, including pre-eclampsia and gestational hypertension, and their impact on maternal and neonatal health. The article is from the British Journal of Midwifery, dated April 1, 2015. A table of contents on the left lists sections like "Diagnosis and manage..." (252), "Midwifery management..." (260), "Hand expressing in p..." (268), "Promoting homebirth..." (276), and "What are OERs and MO..." (282). A "Cite" button is circled in red on the right-hand side of the article preview.

The database citation tool is useful, but it is important for you to review and correct the formatting yourself.

The screenshot shows the "Citation Format" tool in EBSCOhost. It provides instructions for using the tool, emphasizing the need to review personal names, capitalization, and dates. Below the instructions, the tool has generated an APA-style citation for the article: Townsend, R., O'Brien, P., & Khalil, A. (2015). Diagnosis and management of preeclampsia: A clinical perspective on recent advances in the field. *British Journal Of Midwifery*, 23(4), 252-258.

See APA citation resources at the FGC Library under Research Help and Guides (<https://www.fgc.edu/academics/library/research-help-and-guides/>) including an FGC Video Tutorials, APA Style Home, and a link to the Purdue OWL.

CINAHL Subject Headings find articles using authoritative search terms, as compared to keyword searches that look for occurrences of words in the article. Subject headings use controlled vocabulary and can build a search using the subject hierarchy and subheadings.

CINAHL Subject Headings are assigned based on article content and help you retrieve more relevant articles. A hierarchy for terms is shown that can be expanded.

- “Major Concept” means the search term will be the major focus of the article.
- “Explode” means the results will include narrower terms.
- “Scope” will give an explanation or definition of terms.

You can select to “Include all Subheadings” on right or choose specific ones to build a search.

Similar Databases (from EBSCO):

- Medline with Full Text - from National Library of Medicine. Includes MeSH Headings
- The Health and Nursing database searches CINAHL, Health Source: Nursing/Academic; and PsycARTICLES

You can cross-search EBSCO databases. Above the search box click Choose Databases and select multiple databases from list.

The screenshot shows the EBSCO search interface. At the top left is the EBSCO HOST logo. The search bar contains the text "Searching: CINAHL Plus with Full Text" and a "Choose Databases" link circled in red. Below the search bar is a text input field with the placeholder "Enter any words to find books, journals and more" and a green "Search" button. Below the search bar are links for "Search Options", "Basic Search", "Advanced Search", and "Search History".

The "Choose Databases" dialog box is open, showing a "Detailed View" with the following options:

Nursing Library (Rittenhouse)

Rittenhouse R2 is a collection of over 1,200 Nursing ebooks. You can search a drug or condition by typing it into the large search bar. This will give you a list of results taken from specific chapters of books.

You can refine your results on the left side by Practice Area, Publication Date or Discipline.

The screenshot shows the Rittenhouse Digital Library search results for the term "hypertension". The page includes a search bar with the term entered, a "SEARCH" button, and a "Tools" dropdown menu. On the left, there are filters for "Current Search" (Search Terms: hypertension), "Include" (Active: 4,508; Archive: 984), "Show results from" (Indexed Terms: 97; Full Text: 4,501; Chapter Title: 40; Section Title: 41; Images: 21), and "Filter by" (Practice Area: Allied Health (6), Consumer Health (86), Medicine (28), Nursing (4,420); Publication Date: 2014 (631), 2013 (1,433), 2012 (490), 2011 (864)). The main content area displays "Search Results" with a "Jump to page" list (1-9) and a "Next >>" button. Below the search results, there are two entries: "Chapter 28 - Hypertension: Nursing Management | Section: HYPERTENSION" from "CONTEMPORARY MEDICAL-SURGICAL NURSING, 2nd; Rick Daniels, RN, COL, PhD, Leslie Nicoll, RN, BC, MBA, PhD, Delmar Cengage Learning, 2012" and "Chapter 7 - RENAL AND UROLOGIC DISORDERS | Section: CHRONIC RENAL DISORDERS" from "PROFESSIONAL GUIDE TO DISEASES, 10th; LWW, Lippincott Williams & Wilkins, 2013".

Click on an entry in the results list to open the ebook for the full text context.

The screenshot shows the full text view of the "HYPERTENSION" chapter from "CONTEMPORARY MEDICAL-SURGICAL NURSING". The page includes a search bar with the term "hypertension" entered, a "SEARCH" button, and a "Tools" dropdown menu. On the left, there are filters for "Current Search" (Search Terms: hypertension), "Include" (Active: 4,508; Archive: 984), "Show results from" (Indexed Terms: 97; Full Text: 4,501; Chapter Title: 40; Section Title: 41; Images: 21), and "Filter by" (Practice Area: Allied Health (6), Consumer Health (86), Medicine (28), Nursing (4,420); Publication Date: 2014 (631), 2013 (1,433), 2012 (490), 2011 (864)). The main content area displays "Search Results" with a "Jump to page" list (1-9) and a "Next >>" button. Below the search results, there are two entries: "Chapter 28 - Hypertension: Nursing Management | Section: HYPERTENSION" from "CONTEMPORARY MEDICAL-SURGICAL NURSING, 2nd; Rick Daniels, RN, COL, PhD, Leslie Nicoll, RN, BC, MBA, PhD, Delmar Cengage Learning, 2012" and "Chapter 7 - RENAL AND UROLOGIC DISORDERS | Section: CHRONIC RENAL DISORDERS" from "PROFESSIONAL GUIDE TO DISEASES, 10th; LWW, Lippincott Williams & Wilkins, 2013".

Clicking on hot links within the articles will perform a new search on that term.

The chapters can be printed, saved, and exported under Tools.

The APA Citation tool is found under Tools/Export Citation, but be sure to make corrections to the information given. See APA citation resources at the FGC Library under Research Help and Guides.

Ovid: Ebooks and Full-Text Nursing Journals

There are over 300 ebooks and 60 full text nursing journals available in Ovid.

The Basic Search uses natural language to search. The Advanced Search uses keywords with the newest results showing first.

The screenshot displays the Ovid search interface. At the top, the Ovid logo is visible, followed by navigation tabs for Search, Journals, Books, Multimedia, and My Workspace. Below these is a Search History section with 2 items. The main search area includes a search bar with the text 'hypertension' and a Search button. The search type is set to 'Keyword'. Below the search bar, there are options for 'Limits' and 'Include Multimedia'. The 'Limits' section includes checkboxes for 'Daily Update', 'Original Articles', 'Articles with Abstracts', and 'Review Articles', along with a 'Publication Year' range from 2017 to 2021. The search results are displayed in a list format, with two results shown. The first result is 'Effect of Nurse Practitioner Interventions on Hospitalizations in the Community Transitions Intervention Trial' by Osakwe, Zainab Toteh 1, Barron, Yolanda 2, McDonald, Margaret V. 2, Feldman, Penny H. 2. The second result is 'The Association Between Neighborhood Social Vulnerability and Cardiovascular Health Risk Among Black/African American Women in the InterGEN Study' by Ibrahim, Bridget Basile 1, Barcelona, Veronica 2, Condon, Eileen M. 3, Crusto, Cindy A. 4,5, Taylor, Jacquelyn Y. 6. The interface also includes a 'Search Information' sidebar on the left with details about the search and a 'Filter By' section for refining results.

Lymph Vessels
1/1

Like blood vessels, lymph vessels range throughout the body and organs of the body. Lymph vessels collect and transport lymph fluid. Lymph fluid is made up mostly of excess fluid the cells have taken from blood, called interstitial fluid. It's also made up of fat absorbed from the small intestine, and type a of white blood cell called a lymphocyte. Like other white blood cells, lymphocytes find and destroy disease-causing agents. But most lymphocytes travel through the lymphatic system
