

Firefighter Program Application

Consent for Drug Screening

I understand that as part of the application process Florida Gateway College will conduct a background investigation and a drug screening to determine my aptness for admission into our programs.

In keeping with the efforts of Florida Gateway College to identify the most qualified individuals for admittance to our programs: I do hereby voluntarily consent to the sampling and subsequent testing of my urine. I understand that refusal to supply the necessary sample may be grounds for the disapproval of my application for admittance into our programs. I also understand that written confirmatory laboratory reports may be subject to disclosure under the Florida Public Records Act.
